

ANNOUNCEMENT

Tina Roesler

"It is with great pleasure and excitement that I announce Tina Roesler, PT, MS has joined the Motion Composites team as of October 1, 2015."

- Eric Simoneau, CEO Motion Composites

Tina brings a wealth of knowledge and experience and has worked in our industry for over 17 years. Tina has held many notable positions such as Director of Education for The ROHO Group and, most recently Director of International Sales and Education with TiLite. She has presented at numerous global conferences and has experience in sales, market development, training and education, marketing and product development. Tina will be focused on expanding our Global Markets and lending her expertise to our Domestic Market and it's growth.

"Motion Composites is a great fit for me and I am very excited to be joining such a dynamic team! I am looking forward to working on pushing industry innovation even further," says Roesler.

Please join Motion Composites in welcoming Tina to the Team.

Tina can be reached at tina@motioncomposites.com or by phone at +1 773-320-8115.

Sincerely

Eric Simoneau, CEO

About Motion Composites

Founded in 2005, Motion Composites uses the very best technology to build ultra-lightweight, energy efficient and highly maneuverable wheelchairs that enhance mobility and improve people's lives.

Its products have been voted three times as the most innovative product of the year by therapists and dealers across Canada. In 2014, Profit 500 ranked Motion Composites as being the 26th fastest growing company in Canada.
