

# ENGINEERED EDUCATION: PATHS FOR EVERY LEVEL OF SEATING & MOBILITY

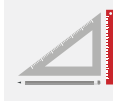

Motion Composites has curated virtual and in-person learning tracks designed to help wheelchair and seating professionals build their foundation or deepening their mobility and seating knowledge.

Each pathway brings together courses that naturally complement one another, helping you strengthen your expertise with clarity and purpose.

Choose the track that fits your goals and set it up in the format that works best for your team. Whether you prefer a virtual series or a customized in-person education event, Motion Composites makes it easy to bring meaningful, high-impact learning to your practice.

## LEARNING PATHWAYS

- 1**
- Measurements for Manual Wheelchairs
  - Center of Gravity
  - Maximizing Propulsion Efficiency

- 2**
- Anatomy of a Manual Wheelchair
  - Beyond the Base
  - Manual Wheelchair Propulsion Techniques

- 3**
- What makes up a Seating System?
  - Wheelchair Positioning for Optimal Seated Alignment

**WANT TO GO A STEP FURTHER?** Add an extra course or two to your series, select from our full menu to create the perfect fit for your audience.

## NEXT STEP

Reach out to your [local sales representative](#) or the [education team](#) to set up your engineered path to education!
