## CENTER OF GRAVITY

### Choose position of rear wheel axle plate:

Measure distance X from front of back post to center of axle receiver.

| Most stable              |                          |                          |                          | Most responsive          |                          |                          |                          |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 1"                       | 1/4"                     | 1/2"                     | 3/4"                     | 2"                       | 1/4"                     | 1/2"                     | 3/4"                     |
